STUDENTS

Policy 2100

Nondiscrimination and Student Rights

The Board of Education reaffirms its belief that every student regardless of race, color, sex, national origin, age, ethnicity, religion, disability, sexual orientation or perceived sexual orientation be given equal opportunity for educational development.

The Board recognizes the importance of providing each student with a school environment conducive to intellectual, emotional and social growth through participation in a full range of educational programs and activities. Board and staff commitments insure equal educational opportunities in course offerings, guidance and counseling, test procedures, extracurricular activities, discipline procedures and student support services.

STUDENTS

Policy 2110
(Regulation 2110)

Nondiscrimination and Student Rights

Equal Educational Opportunity

It is the policy of the Board of Education to provide a free and appropriate education for students with disabilities. Students with disabilities are those who, because of certain atypical characteristics, have been identified by professionally qualified personnel as requiring special educational planning and services. Students with disabilities will be identified on the basis of physical, health, sensory, and/or emotional handicaps, behavioral problems or observable exceptionalities in mental ability. It is possible that a student may have more than one type of disability.

The District's programs and services available to meet the needs of these students will be in accordance with The Individuals with Disabilities Education Act, The Education for All Handicapped Students Act of 1975, The Rehabilitation Act of 1973, Section 504, and § 162.670 - .995 RSMo., Missouri Special Education Services. In addition, the identification of students with disabilities and the services provided by the District will be in accordance with the regulations and guidelines of the Missouri Department of Elementary and Secondary Education's Current Plan for Part B of The Education of the Handicapped Act, as amended. (See Policy and Regulation 6250 - Instruction for Students with Disabilities.)

Nondiscrimination and Student Rights

Harassment

It is the policy of the District to maintain a learning environment that is free from harassment because of an individual's race, color, sex, national origin, age, ethnicity, disability, sexual orientation, or perceived sexual orientation. The School District prohibits any and all forms of unlawful harassment and discrimination because of race, color, sex, national origin, age, ethnicity, disability, sexual orientation, or perceived sexual orientation.

It shall be a violation of District policy for any student, teacher, administrator, or other school personnel of this District to harass or unlawfully discriminate against a student through conduct of a sexual nature, or regarding race, color, sex, national origin, age, ethnicity, disability, sexual orientation, or perceived sexual orientation as defined by this Policy.

It shall also be a violation of District policy for any teacher, administrator, or other school personnel of this District to tolerate sexual harassment or harassment because of a student's race, color, sex, national origin, age, ethnicity, disability, sexual orientation, or perceived sexual orientation, as defined by this Policy, by a student, teacher, administrator, other school personnel, or by any third parties who are participating in, observing, or otherwise engaged in activities, including sporting events and other extracurricular activities, under the auspices of the School District.

For purposes of this Policy, the term "school personnel" includes school board members, school employees, agents, volunteers, contractors, or persons subject to the supervision and control of the District.

The school system and District officials, including administrators, teachers, and other staff members will act to promptly investigate all complaints, either formal or informal, verbal or written, of unlawful harassment or unlawful discrimination because of race, color, sex, national origin, age, ethnicity, disability, sexual orientation, or perceived sexual orientation; to promptly take appropriate action to protect individuals from further harassment or discrimination; and, if it determines that unlawful harassment or discrimination occurred, to promptly and appropriately discipline any student, teacher, administrator, or other school personnel who is found to have violated this Policy, and/or to take other appropriate action reasonably calculated to end the harassment/discrimination.

The District prohibits retaliation against a person who files a complaint of discrimination or harassment, and further prohibits retaliation against persons who participate in related proceedings or investigations.

Searches by School Personnel

School lockers and desks are the property of the Board of Education and are provided for the convenience of students, and as such, are subject to periodic inspection without notice, without student consent, and without a search warrant. The lockers and desks may be searched by school administrators or staff who have a reasonable suspicion that the lockers or desks contain drugs, alcohol, material of a disruptive nature, stolen properties, weapons, items posing a danger to the health or safety of students and school employees, or evidence of a violation of school policy. In addition, the Board of Education authorizes the use of trained dogs to sniff lockers or other school property to assist in the detection of the presence of drugs, explosives, and other contraband.

Students or student property may be searched based on reasonable suspicion of a violation of District rules, policy or state law. Reasonable suspicion must be based on facts known to the administration, credible information provided or reasonable inference drawn from such facts or information. The privacy and dignity of students shall be respected. Searches shall be carried out in the presence of adult witnesses, if such witnesses are available. Students may be asked to empty pockets, remove jackets, coats, shoes and other articles of exterior clothing for examination if reasonable under the circumstances.

No employee shall perform a strip search of any student. The exception to this would be if a school administrator reasonably believes that a student possesses a weapon, explosive, or substance that poses an imminent threat of physical harm to himself or herself or another person, and if a commissioned law enforcement officer is not immediately available. Strip searches may be conducted by, or under the authority of, a commissioned law enforcement officer.

Students are permitted to park on school premises as a matter of privilege, not of right. The school retains the authority to conduct routine patrols of the student parking lots. The interior of a student's automobile on school premises may be searched if a school administrator has reasonable suspicion to believe that illegal, unauthorized or contraband items, or evidence of a violation of school policy is contained inside the vehicle.

Law enforcement officials shall be contacted if the search produces a controlled substance, drug paraphernalia, weapons, stolen goods or evidence of a crime, in any case involving a violation of law when a student refuses to allow a search, or where the search cannot safely be conducted. Parents may also be contacted. A student who refuses to submit to a search may be appropriately disciplined by school officials.

Interviews, Interrogations and Removal from School

Interview or Interrogation

The School District has legal jurisdiction over students during the school day and hours of approved extracurricular activities. The school administration is responsible for making an effort to protect each student's rights with respect to interrogations by law enforcement officials. When law enforcement officials find it necessary to question students during the school day or periods of extracurricular activities, the school principal or designee will be present and the interview will be conducted in private.

The principal will verify and record the identity of the officer or other authority and request an explanation of the need to question or interview the student at school. The principal ordinarily will make reasonable efforts to notify the student's parents/guardians.

Removal of Students from School

Before a student at school is arrested or taken into custody by a law enforcement or other legally authorized person, the principal will verify the official's authority to take custody of the student. The school principal will attempt to notify the student's parent/guardian that the student is being removed from school.

Policy 2170
(Regulation 2170)

Nondiscrimination and Student Rights

Distribution of Noncurricular Publications by Students

The District recognizes that student expression regarding a variety of topics may be beneficial to the District's educational mission. Discussion and debate regarding serious issues can engender tolerance for diverse viewpoints. The District, however, has the obligation to ensure that student expression is consistent with the District's educational mission. Accordingly, the District has adopted guidelines to regulate student expression in a manner consistent with the District's educational goals.

STUDENTS

Policy 2180

Nondiscrimination and Student Rights

Pledge of Allegiance

Schools shall ensure that the Pledge of Allegiance is recited at least once per school day. No student shall be required to recite the Pledge of Allegiance.

STUDENTS

Policy 2200

Admission and Withdrawal

The admission and denial of admission of all students shall be under the direction of the Superintendent/Designee, subject to the approval of the Board of Education. All persons seeking admission to the District and its instructional programs must satisfactorily meet all residency, academic, age, immunization, health, safety and other eligibility prerequisites as established by Board policies, rules and regulations, and by law. Students entering the District will be required to present a birth certificate or some other acceptable proof of age along with proof of residency in the District, or a request for a waiver of the residency requirements unless the student is exempt from the residency requirements as set forth in District policies, rules and regulations and/or law.

Upon a request to enroll any student in the District, the Superintendent/Designee will request the student's previous school records along with any other relevant records as set forth in Regulation 2200 and state law. Any enrollment of a student prior to receipt of the student's previous discipline records will remain conditional until receipt of such records. A student will be allowed to attend school during conditional enrollment so long as the student does not violate the District's code of conduct or pose a threat of harm to students or employees of the District. (See Regulation 2200, Policy 2290, and Policy and Regulation 2664).

Students who are entering kindergarten or first grade are encouraged to pre-register in the spring prior to the fall semester in which they are to begin attendance.

STUDENTS

Policy 2210

Admission and Withdrawal

Entrance Age

Entrance Age for Pre-Kindergarten Programs

If the District chooses to maintain a pre-kindergarten program, the students must have reached the age of three (3) before August 1 of the school year beginning that calendar year to be eligible for admission.

Entrance Age for Kindergarten

To be admitted to kindergarten or to summer school prior to the student's regular term, a student must be five (5) years old before August 1st preceding entrance.

Entrance Age for First Grade

To be admitted to first grade a student must be six (6) years old before August 1st preceding entrance. However, students who have completed an accredited kindergarten program will be considered for enrollment in the first grade regardless of the August 1st cut-off date.

A birth certificate will be required as proof of age.

Military Dependents

Military dependents who have completed an accredited pre-kindergarten or kindergarten program in another state may enter kindergarten or first grade regardless of age. The District will facilitate the timely enrollment of children of military families and will ensure that they are not placed at a disadvantage due to difficulty in their transfer of education records from the previous school district(s) or variations in entrance legal requirements.

STUDENTS

Policy 2220

Admission and Withdrawal

Compulsory Attendance Ages

The Board of Education shall abide by the compulsory attendance laws of the state by requiring District resident students between the ages of seven and either seventeen years or successful completion of sixteen credits toward high school graduation, to attend school full time, with the exception of those students who may be excused from full-time attendance by the Superintendent. Individual petitions for any deviation from full-time attendance shall be considered by the Superintendent on the merits of the individual student's application and in compliance with state law and regulations. For purposes of this Policy, a completed credit toward high school graduation is defined as one hundred hours of instruction or more in a course.

Any student age seventeen years or older who drops out of school for any reason other than to attend another school, college or university, or to enlist in the armed services, shall be reported to the state literacy hotline office by the School District.

STUDENTS

Policy 2230
(Regulation 2230)
(Form 2230)

Admission and Withdrawal

Admission of Non-Tuition Students

Resident Students

Resident students of the District, five to twenty-one (5-21) years of age, who have not graduated from high school or received any document evidencing completion of the equivalent of a secondary curriculum (G.E.D.), and are not barred from enrollment by provisions of the Safe Schools Act (See Policy and Regulation 2664) may attend District schools tuition free. Resident students must provide proof of residency in the District at the time of enrollment. To be a resident of the District, a student must both physically reside and be domiciled within District boundaries. The domicile of a minor child is the domicile of a parent, military guardian pursuant to a military issued guardianship, or court-appointed legal guardian. Where due to military stationing or deployment out-of-state of one or both of a child's parent(s), the child, a resident of Missouri, relocates to live with other family members that live in the District or lives in a military support community located in the District, the child may attend District schools. If the parents' active duty orders expire during the school year, the student will be permitted to finish the current school year at the District.

In addition, the District will provide tuition-free special education services to resident students who qualify for special education services between the ages of 3 and 21 as required by law.

Students Entitled to Enroll Without Proof of Residency

The residency provisions of this policy are not applicable to homeless students, inter-District court-ordered desegregation students, wards of the state placed in residential care facilities, students placed in a residential care facility due to a mental illness or developmental disability, students placed in a residential facility by a juvenile court, students with a disability identified under state eligibility criteria if the student is in the district for reasons other than accessing the district's educational program, students attending regional or cooperative alternative education programs, students attending an alternative education program on a contractual basis, or students attending a school pursuant to R.S.Mo.§ 167.151(2) or (4). The exemptions to the residency requirement are expressly established by state law and entitle such students to tuition-free school attendance. Additionally, a student may be partially exempt from the payment of tuition as set forth in Policy and Regulation 2240 and state law. For purposes of IDEA special education evaluation and provision of special education services a student attending a private school located within the District will be evaluated as a resident student.

Requests for Waiver of Proof of Residency Requirements

Those students who are unable to satisfy the proof of residency requirements and who are not entitled to enroll as provided in the previous section of this Policy and state law may request a waiver of the proof of residency requirements. Upon filing a Request for Waiver of Proof of Residency (Form 2230.1) and satisfaction of all other enrollment requirements, the student will be conditionally enrolled and allowed to attend school pending a Board of Education hearing on the student's request unless there is reason to suspect that the admission of the pupil will create an immediate danger to the safety of other students or employees of the District. If there is reason to suspect that the student poses an immediate danger, the Superintendent/Designee may convene a hearing within five working days of the request to register and determine whether or not the pupil may register. (See Policy and Regulation 2200, Regulation 2230 and Policy and Regulation 2664).

Students of Nonresident Teachers and Regular Employees

Nonresident students of District teachers or regular District employees may be permitted to attend school without payment of tuition. Such students will be considered a "resident" student for purposes of state aid.

STUDENTS

Policy 2240
(Regulation 2240)

Admission and Withdrawal

Admission and Tuition - Nonresident Students

Nonresident students may be permitted to attend the District schools upon payment of tuition provided the student is not barred from enrollment by provisions of the Safe Schools Act. (See Policy 2664.) Tuition rates will be determined annually by the Board of Education on the basis of the per-pupil cost for the preceding year including operation, maintenance, and debt service of the schools.

Within two (2) business days of enrollment in the District by state officials of a nonresident student pursuant to state statute, the Superintendent/designee will request the student's transfer and discipline records from all schools or facilities previously attended and from other state agencies and entities involved in the placement of the student within the twenty-four (24) month period preceding enrollment. The Superintendent/designee is authorized to share relevant portions of such student's transfer and discipline records with District employees who, based upon their duties, have a need to know such information. Such records will be maintained in confidence for purposes of maintaining discipline and for assistance to the student. The student's transfer and discipline records will not be a part of the student's permanent record nor used as the sole basis for denying educational services to a pupil.

Admission of Residents from Unaccredited School Districts

In accordance with Missouri law and Board Regulation, the District will accept transfer students from school districts in its same or adjoining counties that are declared unaccredited by the state of Missouri.

STUDENTS

Policy 2245

Admission and Withdrawal

Transfer Students

All students entering the District from other educational settings are required to submit evidence of their achievement in the last grade attended. Grade placement of a student may be adjusted on the basis of examination of the student's previous record, achievement tests administered, or other factors that the principal and staff believe are appropriate under the circumstances. A transcript of all entering secondary school students is required before enrollment can be completed. However, a student may be permitted to enroll temporarily until a full transcript is obtained.

Transfers from Unaccredited Schools

Parents/guardians should be advised that if they choose to transfer their student to the public school from an unaccredited school, the student will not be guaranteed comparable placement in the public schools. Students transferring will be assigned an appropriate grade level and class assignment based on their educational and developmental level as determined by the principal through assessment of student's age, educational experience, achievement tests and consultation with parent/guardian and personnel from the student's former school.

Intradistrict Transfers

The Superintendent may authorize the transfer of a student from one District school to another.

Reasons for the transfer may include, but are not limited to:

1. Welfare of the student
2. Disciplinary concerns
3. Curriculum offerings
4. Special education placement
5. Parent/guardian custody
6. Relocation of residence
7. Student of a District employee
8. Transportation

The request for transfer may be initiated by the building principal and/or the parent/guardian. The request shall outline the reasons for the transfer, the positive and negative impact upon the student, and any differences of opinion about the transfer. A request for a student transfer will be submitted to the Superintendent.

STUDENTS

Policy 2250

Admission and Withdrawal

Admission of Exchange Students

Resident foreign exchange students under the auspices of an organization or association accredited by the state and/or federal governments for that purpose may enroll in the School District, and shall have all the rights and privileges of a resident student during the period of enrollment. Those sponsoring agencies which comply with the standards for foreign student exchange programs as established by the U.S. Department of State are those which will be recognized by the District.

STUDENTS

Policy 2255

Admission and Withdrawal

Disabled Students

The District will follow all state and federal laws, rules and regulations with regard to implementing its responsibilities to students who enroll in the District that have been previously identified as disabled under the Individuals with Disabilities Education Act, or Section 504 of the Rehabilitation Act.

STUDENTS

Policy 2260
(Regulation 2260)

Admission and Withdrawal

Homeless Students

The Board of Education is committed to providing equal access for all eligible homeless students to a free, appropriate education in the same manner as is provided to other District students. In carrying out this commitment, the District will identify and assess the needs of the District's homeless students; provide for the placement of its homeless students in the school of best interest; provide access to the District's programs; and appoint a homeless coordinator. The Superintendent will review all District policies to determine whether they act as barriers to the enrollment of homeless students. Special attention will be given to policies regarding transportation, immunization, residency, birth certificates, school records and guardianship. (See also Policy and Regulation 6273 – Instruction for Homeless Students.)

STUDENTS

Policy 2270
(Regulation 2270)

Admission and Withdrawal

Migrant Students

The Board of Education is committed to the identification, needs assessment and enrollment of migrant students living within the District. The District's Coordinator of Programs for Homeless Students is also responsible for implementation and maintenance of the District's program for migrant students. (See also Policy 6274 – Instruction for Migrant Students.)

The Board of Education directs the administration to screen students, as required by law, to assist the state in identifying migratory children. If the District becomes aware of any student who might be a migrant student, the superintendent or designee will notify the state director of migrant education, as designated by the Department of Elementary and Secondary Education (DESE), so that the student may be formally recognized as a migrant student.

The administration will develop written administrative procedures for ensuring that migrant students, once identified, receive services for which they are eligible. In developing and implementing a program to address the needs of migratory children, the District will:

1. Screen students and assess the educational and related health and social needs of each student identified as migrant.
2. Provide a full range of services to migrant students, including applicable Title I programs, special education, gifted education, career or technical education, language programs, counseling programs, elective classes, fine arts classes, etc.
3. Provide migratory children with the opportunity to meet the same statewide assessment standards that all children are expected to meet.
4. To the extent feasible, provide advocacy and outreach programs to migratory children and their families and professional development for district staff.
5. Provide parents/guardians an opportunity for meaningful participation in the program.

STUDENTS

Policy 2280

Admission and Withdrawal

Admission of Home Schooled Students

Students who enroll in the District from a home-schooled status must meet residency requirements as stipulated in Policy 2230.

Grade placement will be determined by an administrative evaluation of records from the home-school setting and assessment of student's age, total educational experience, achievement tests administered at the time of District registration, and consultation with parents/guardians.

STUDENTS

Policy 2290

Admission and Withdrawal

Denial of Admission and Student Withdrawal from School

Denial of Admission

A student who is conditionally enrolled pending a Waiver of the Proof of Residency Requirement hearing may be denied admission and barred from attending school after denial of the student's waiver request as provided in Regulation 2230 and state law.

A student may be denied admission based upon a previous disciplinary expulsion that would result in expulsion in the District or criminal conduct as provide in Policy and Regulation 2664 and state law.

A nonresident student who is not otherwise entitle to a free public education in the District, may be denied admission for any nondiscriminatory reason in accordance with District policies, regulations and rules and state and federal law.

Administrative Removal of Student from Enrollment Not Resulting from Student Disciplinary Action

Upon information that calls into question a student's entitlement to a free public education in the District, the Superintendent/Designee will attempt to contact the student's parent(s) or guardian and give him/her the opportunity to respond. If the Superintendent/Designee determines after this communication or attempted communication that the student is not entitled to a free public education in the District, the Superintendent/Designee will provide written notification of this determination to the parent(s)/guardian and will notify the parent(s)/guardian of the right to appeal this determination to the Board of Education. The student will not be removed from the District's enrollment and barred from school attendance until after the time period to appeal to the Board has expired or if the Superintendent/Designee's Determination is appealed, the Board has upheld the Superintendent/Designee's determination.

Voluntary Student Withdrawal

Students who voluntarily withdraw from school for any reason are required to notify the building principal and provide a specific reason for withdrawal.

Each building principal will submit a monthly report to the Superintendent concerning the identity and reason of each student withdrawing from school.

Requests to Transfer Student's Records to Another Public, Private or Charter School

Building principals will respond within five (5) business days to requests by other schools for the records of students transferring from District schools. Records transferred pursuant to such requests will include the written notification of criminal charges/adjudications by law enforcement officials for criminal acts listed in Regulation 2673.

STUDENTS

Policy 2310

Attendance

Student Attendance

The Board of Education believes that regular attendance is essential to achieving success in school. Education is a total process based upon continual communication and shared responsibilities among parents, students, teachers and school. As students mature and progress through the educational system, they should increasingly assume responsibility for regular attendance. However, parents have a legal and moral responsibility to require regular attendance at school.

STUDENTS

Policy 2315

Attendance

Student Attendance – Excused Absences

In accordance with Missouri state law, the District recognizes that the Future Farmers of America Organization (FFA), Family, Career, and Community Leaders of America (FCCLA), 4-H programs, and organized competitions held as part of the Missouri state fair involve important education and learning processes and are beneficial to District students. Due to the nature of these organizations, students will occasionally need to miss school time in order to fully participate and benefit from the programs sponsored by these organizations. Accordingly, students who miss school time during the regular school day due to participation in officially sanctioned activities of the Future Farmers of America Organization (FFA), Family, Career, and Community Leaders of America (FCCLA), 4-H, and competitions held as part of the Missouri state fair, shall receive an excused absence and shall be considered to be attending regularly scheduled instruction during such times of absence. Up to **17** days of school days for participation in such activities will be excused by the District per school year for each student.

If a leader of one of the above referenced organizations or the parent of a student participating in the Missouri state fair anticipates that a student will miss school time due to participation in an activity for such organization, the leader/parent shall let the building principal know with as much notice as possible prior to the event and receive his/her approval of the activity and for missed school time. Time missed by students participating in an activity of such programs shall be included in the district's calculation of average daily attendance as defined by Missouri law. Students who miss school time due to participation in an approved activity as set forth in this policy, will be expected to make up all school work missed during their absence.

Truancy and Educational Neglect

The Board of Education believes regular attendance is important to academic success. Therefore, the Board directs that problems with attendance on the part of any student be investigated and acted upon promptly.

Truancy is defined as deliberate absence from school on the part of the pupil with or without the knowledge of the parent/guardian and for which no justifiable excuse is given. When a pattern of truancy becomes evident, the principal will investigate and take such action as circumstances dictate.

Section 210.115 R.S.Mo. mandates reporting to the Division of Family Services when there is reasonable cause to suspect that a student's nonattendance is due to the educational neglect of the parents/guardians.

Any school official or employee who knows or has reasonable cause to suspect that a student is being subjected to home conditions or circumstances which would reasonably result in truancy will immediately report or cause a report to be made to the building principal, or his/her designee, who will then become responsible for making a report via the Student Abuse Hotline to the Missouri Division of Family Services (DFS). The building principal shall inform the Superintendent/designee that a report has been made, and keep the Superintendent apprised of the status of the case.

Student Educational Records

A cumulative educational record shall be maintained for each student from his/her entrance into school through the last date of attendance or through graduation, whichever occurs first.

Each student's educational record will include information required by state and federal statutes, regulations or agencies and shall include other information considered necessary by school officials.

The District will comply with the mandates of the Family Educational Rights and Privacy Act (FERPA) and the Safe Schools Act regarding confidentiality of student records and disclosure of personally identifiable information.

The parents/guardians of students who are attending or have attended the District's schools have the right to inspect and review the educational records of their students and to request amendment of their students' educational records. The District has adopted procedures (Regulation 2400) for the granting of parental requests for access to the educational records of their students within a reasonable period of time, but in no case more than forty-five (45) days after the request is made.

All information contained in a student's educational record, except information designated as directory information by the District, shall be confidential and shall be directly accessible only to school officials who demonstrate a legitimate educational interest in the student's records and to parents/guardians or eligible students.

Upon request by military recruiters or an institution of higher learning, the District will provide students' names, addresses and telephone listings. Parents will be notified annually of their right to individually request that such information not be released without prior parental consent. Military recruiters will be provided the same access to students as is given to institutions of higher learning.

Recording of Meetings

The District prohibits the use of audio, video or other recording devices in any meetings between District employees and parents/guardians, including but not limited to meetings held pursuant to the Individuals with Disabilities Education Act and Section 504 of the Rehabilitation Act. Exceptions to this prohibition will be made on a case-by-case basis and in accordance with federal and state laws. If a parent or guardian wishes to request an exception to this general prohibition, he or she must make a written request to the organizer of the meeting no later than one week prior to the meeting. The request must state the reasons why the parent or guardian believes the District should make an exception and/or why he or she believes that the use of a recording device is necessary to comply with any applicable federal or state laws. The District will provide a written response to the request prior to the scheduled meeting.

Promotion and Retention

The purpose of promotions and retentions is to provide maximum consideration for the long-range welfare of the student and to provide an opportunity for each student to progress through school according to his/her own needs and abilities.

It is expected that most students in the schools will be promoted annually from one grade level to another upon completion of satisfactory work, however, a student may be retained when his/her standards of achievement or social, emotional, mental, or physical development would not allow satisfactory progress in the next higher grade. Retention normally occurs before the student leaves the primary grades.

Parents/guardians who wish to appeal the decision for retention must first contact the building principal. If parents/guardians do not accept the decision at the building level, an appeal may be made in writing to the Superintendent. All appeals must be requested within two (2) weeks after the close of school.

The process for reading assessments and remediation, and retention guidelines for students who fail to meet the District's objectives for reading, are contained in Regulation 2520 - Promotion and Retention.

Graduation Requirements

The graduation requirements set out in this policy will apply beginning with the Class of 2018. The minimum graduation requirements are as follows:

| | |
|--------------------|-----------------|
| Communication Arts | 4 units |
| Social Studies | 3 units |
| Mathematics | 3 units |
| Science | 3 units |
| Fine Arts | 1 unit |
| Practical Arts | 1 unit |
| Physical Education | 1 unit |
| Technology | 1 unit |
| Health Education | ½ unit |
| Personal Finance | ½ unit |
| Electives | <u>12 units</u> |
| Total | 30 units |

The District will accept courses offered through Missouri’s K-12 Virtual Instructional Program (MoVIP) as units of credit meeting state and local graduation requirements provided however the quantity and quality of completed student works meets standards applicable to the District’s traditional program. (See Policy Virtual Instruction Program).

Eligible students as defined in Regulation 2525 may pursue a timely graduation from high school through the School Flex Program. Eligible students participating in the School Flex Program will be considered full-time students.

Constitution and American Civics Tests

As a condition of graduation, student must satisfactorily pass an examination on the principles and provisions of the United States and Missouri Constitutions, American History, American Institutions and American Civics. This requirement may be waived for any student transferring from a school outside the state if the student furnishes acceptable documentation of the student's successful completion of a course over comparable material.

The Civics examination will consist of one hundred questions similar to the one hundred question examination used by the United States for applicants for citizenship.

All students entering 9th grade after July 1, 2017 must pass an American Civics Test similar to the civics portion of the United States Naturalization Test, produced by the United States Citizenship and Immigration Services. The American Civics Test may be administered in conjunction with testing on the provisions and principles of the United States and Missouri Constitutions, American History and American Institutions.

Graduation Requirements - Students with Disabilities

The District must provide a free appropriate public education (FAPE) for students with disabilities pursuant to the Individuals with Disabilities Education Act (IDEA) until they graduate or until the student reaches twenty-one (21) years of age.

Students with disabilities pursuant to the IDEA who have completed four years of high school shall be allowed to participate in the graduation ceremony of the student's high school graduating class and all related activities if the student's individualized education program (IEP) prescribes special education, transition planning, transition services, or related services beyond the student's four years of high school, and the student's individualized education program team determines the student is making satisfactory progress toward the completion of the individual education program and participation in the graduation ceremony is determined appropriate.

The District shall provide timely and meaningful written notice to children with disabilities and their parents or guardians about the instant policy. [Notice of the District's policy shall be provided at the annual IEP meeting that occurs prior to the student's fourth year of high school.] The purpose of the notice is to inform parents and students about the policy and should not be confused with IDEA notices of action relating to the identification, evaluation, placement, or provision of FAPE.

Dual Credit Scholarships

The District may provide “dual credit” courses in conjunction with an accredited Missouri higher education institution. Such courses would be taught in a district high school by instructors possessing appropriate academic credentials. Eligible students participating in the program would be eligible to earn high school and college credit simultaneously.

Subject to state appropriation of funds, dual credit students may be eligible for a dual credit scholarship. Dual credit students would be eligible to receive up to fifty (50%) percent of the tuition cost paid by the student to enroll in a course offered by an approved dual credit provider. However, no student shall receive more than five hundred dollars (\$500.00) annually for all dual credit courses taken.

In order to be eligible to receive a dual credit scholarship a student must:

1. Be a United States citizen or permanent resident;
2. Be a Missouri resident;
3. Have a cumulative high school GPA of at least 2.5 on a four point scale.
4. Meet one or more of the following indicators of economic need:
 - a. Be eligible to be enrolled in a federal free or reduced lunch program; or
 - b. Reside in a foster home; be a ward of the State; or be homeless; or
 - c. Receive low income public assistance or live in federally subsidized public housing.

STUDENTS

Policy 2600

Discipline

The District has the authority to discipline for student conduct that is prejudicial to good order and discipline in the schools as provided by state law. School officials are authorized to hold students accountable for misconduct in school, on school property, and during school-sponsored activities. Students who engage in significant acts of misconduct off campus which materially and adversely impact the education of District students will be subject to discipline up to and including expulsion. However, no student will be confined in an unattended locked space except for emergency situations while awaiting the arrival of law enforcement officials.

Students forfeit their right to a public school education by engaging in conduct prohibited in Regulation 2610, the code of student conduct, and/or state or federal law. Disciplinary consequences include, but are not limited to, withdrawal of school privileges (athletics, intramurals, student clubs and activities and school social events); the reassignment of the student to another school; removal for up to ten (10) school days by building principals; extension of suspensions for a total of 180 days by the Superintendent; and longer term suspension and expulsion from school by the Board of Education. See also Policies 2610, 2662, and 2663.

Removal of any student who is a student with a disability under Section 504 of the Rehabilitation Act of 1973 or the Individuals with Disabilities Education Act is subject to state and federal procedural due process rights. See policy 2672 and its corresponding regulation.

The District will provide annual in-service training to all employees concerning the District's discipline regulations and their implementation. Annual training will also include, but will not be limited to, approved methods of dealing with school violence, discipline of students with disabilities, and the requirements of student confidentiality.

Misconduct and Disciplinary Consequences

All students attending school in District schools will be expected to accept the obligation and responsibility to attend school on a regular basis and to comply with the District's discipline code set forth in Regulation 2610. Those students who choose not to fulfill their responsibilities at school will be held accountable for their conduct. Consequences for individual acts of misconduct are calculated to discipline the student, to deter future misconduct, and to provide a safe and positive environment in which students can learn. Students who engage in significant acts of misconduct off campus which materially and adversely impact the educational environment of district students to the extent allowed by law will be subject to discipline up to and including expulsion.

Firearms and Weapons in School

The District recognizes firearm and weapon possession as a potential threat to the health, safety and security of students, employees, and other persons. The District will not tolerate the presence of firearms or weapons on the premises of our schools. This prohibition includes possession of firearms and weapons on school playgrounds, school parking lots, school buses, and at school activities, whether on or off school property. The District complies with the provisions of the Improving America's Schools Act of 1994 and other applicable federal and state law.

Nothing in this policy shall prohibit the District from permitting a Civil War re-enactor to bring a Civil War era weapon to school for educational purposes so long as the weapon is not loaded.

Students who violate this policy will be suspended for no less than one (1) year and are subject to permanent expulsion. However, the Superintendent may recommend to the Board a modification of the suspension on a case-by-case basis. Students with disabilities under the Individuals with Disabilities Act and/or Section 504 of the Rehabilitation Act are entitled to the protections of those laws.

This policy will be annually submitted to the Department of Elementary and Secondary Education together with a report of disciplinary action taken for possession of a "firearm" or "weapon" as defined in Regulation 2620.

Closed Campus

With the safety and welfare of the students in mind, the Board of Education has closed all campuses during the school day. Student Use of Tobacco, Alcohol and Drugs

Smoking

The Board of Education believes that smoking; the use of any tobacco products; and substances appearing to be tobacco products are detrimental to the health and well-being of staff and students. Therefore the Board prohibits the use, sale, transfer and possession of tobacco products and substances appearing to be tobacco products, i.e. e-cigarettes, at school and at school activities.

Alcohol and Drug Use

The improper use of controlled substances, alcohol and substances represented to be such is detrimental to the health and welfare of students and is detrimental to discipline in school. Such conduct, as well as the possession of drug paraphernalia, is prohibited and is subject to disciplinary action as set forth in Regulation 2610.

Pursuant to 29 U.S.C. 705(20)(c)(iv), a student with a 504/ADA disability who is currently engaging in the illegal use of alcohol or drugs is not considered a student with a disability under those laws and the District, may take disciplinary action – to the same extent that disciplinary action is taken against nondisabled students – in relation to that use or possession of alcohol or drugs. In such cases, the due process procedures contained in the Section 504 regulations will not apply to protect those students. This provision does not apply to students who are identified as disabled under the Individuals with Disabilities Education Act. However, school personnel may remove an IDEA disabled student to an interim alternative educational setting for not more than 45 school days without regard to whether that student’s behavior is a manifestation of his/her disability where that student knowingly possesses or uses illegal drugs, or sells or solicits the sale of a controlled substance, while at school, on school premises, or at a school function under the District’s jurisdiction. “Illegal drug,” as it pertains to the discipline of IDEA students, means a controlled substance but does not include a controlled substance that is legally possessed or used under the supervision of a licensed health-care professional or under any other authority.

The determination of whether or not a student is under the influence of alcohol or a controlled substance is based upon a variety of information including but not limited to, physical appearances, speech patterns, and witnesses statements. While not required, District administrators may request a student suspected of alcohol use to submit to a Breathalyzer. Conduct that includes possession of or use of alcohol or controlled substances as well as the possession of drug paraphernalia is prohibited and is subject to disciplinary action as set forth in Regulation 2610.

Drug-Free Schools

Pursuant to requirements of the 1989 amendments of the Drug-Free Schools and Communities Act and to the requirements of the Safe Schools Act, and for the purpose of preventing the use of illicit drugs and alcohol by students, the District shall provide age-appropriate, developmentally based drug and alcohol education and prevention programs to all students from early childhood level through grade twelve (12). (See also Policy 6130 - Drug Education.) Such programs will address the legal, social and health consequences of drug and alcohol use, and provide information about effective techniques for resisting peer pressure to use illicit drugs or alcohol.

The District shall provide information about any drug and alcohol counseling and rehabilitation and re-entry programs that are available to students. Students may be required to participate in such programs in order to avoid suspension or expulsion if they are found to be in violation of this policy. All parents/guardians and students shall annually be provided with a copy of this policy.

The District certifies that it has adopted and implemented the drug prevention program described in this policy in the form required by the Department of Elementary and Secondary Education or the United States Department of Education. The District conducts a biennial review of such program to determine its effectiveness, to implement necessary changes and to ensure that the disciplinary sanctions are consistently enforced.

Student Dress

The Board of Education expects student dress and grooming to be neat, clean and in keeping with community standards, so that each student may share in promoting a positive, healthy and safe atmosphere within the School District. This expectation includes the school day and school sponsored extracurricular activities. The Board may require students to wear a school uniform.

Students shall observe modes of dress and standards of personal grooming that are in conformity with the educational environment and necessary to maintain an orderly and safe atmosphere for all students. Apparel is expected to conform to reasonable student standards of modesty, and as such, no excessive or inappropriate areas of skin or undergarments may be exposed. No apparel or grooming which presents a safety concern is permitted. No apparel displaying messages that are gang-related, sexually explicit, vulgar, violent, or advocating illegal activities is permitted. Further, no clothing or personal grooming that disrupts, or can be forecasted to disrupt, the educational environment is permitted.

Student Participation in Secret Organizations and Gangs

The Board of Education prohibits membership in secret fraternities or sororities, or in other clubs or gangs not sponsored by established agencies or organizations recognized by the School District.

The Board of Education feels that the presence of gangs and gang activities can cause a substantial disruption of or material interference with school and school activities. A "gang" as defined in this policy is any group of two or more persons whose purposes include the commission of illegal acts. By this policy, the Board of Education acts to prohibit existence of gangs and gang activities as follows:

No student on or about school property or at any school activity:

1. Shall wear, possess, use, distribute, display, or sell any clothing, jewelry, emblem, badge, symbol, sign, or other things which are evidence of membership or affiliation in any gang.
2. Shall commit any act or omission or use any speech either verbal or non-verbal (gestures, handshakes, etc.) showing membership or affiliation in a gang.
3. Shall use any speech or commit any act or omission in furtherance of the interests of any gang or gang activity, including but not limited to:
 - a. Soliciting others for membership in any gangs.
 - b. Requesting any person to pay protection or otherwise intimidating or threatening any person.
 - c. Committing any other illegal act or other violation of school District policies.

Bullying

The District is committed to maintaining a learning and working environment free of any form of bullying or intimidation. Bullying is strictly prohibited on school grounds, or school time, at a school sponsored activity or in a school related context. Bullying is the intentional action by an individual or group of individuals to inflict intimidation, unwanted aggressive behavior, or harassment that is repetitive or is substantially likely to be repeated and causes a reasonable student to fear for his or her physical safety or property; substantially interferes with the educational performance, opportunities, or benefits of any student without exception; or substantially disrupts the orderly operation of the school. Bullying may consist of physical actions, including gestures, or oral, cyberbullying, electronic, or written communication, and any threat of retaliation for reporting acts of bullying.

Cyberbullying means bullying as defined above through the transmission of a communication including, but not limited to, a message, text, sound, or image by means of an electronic device including, but not limited to, a telephone, wireless telephone, or other wireless communication device, computer, or pager. The District may prohibit and discipline for cyberbullying that originates on any District campus or at a District activity if the electronic communication was made using the school's technological resources, if there is a sufficient nexus to the educational environment, or if the electronic communication was made on the District's campus or at a District activity using the student's own personal technological resources. Further, students who engage in significant acts of misconduct off campus which materially and adversely impact the education of District students will be subject to discipline.

Bullying, as defined in this policy, is strictly prohibited. Students are encouraged to report any incident of bullying which they have witnessed or incurred, by contacting their building principal. District employees are required to report any instance of bullying of which the employee has witnessed within two (2) school days of the occurrence. Employees shall report the occurrence to the building principal, who is the person the District designates to receive reports of incidents of bullying. A principal who receives a report of an incident of bullying shall initiate an investigation into the allegations within two (2) school days of receipt of the report. The principal may assign other employees to assist in the investigation, or request that the superintendent assign an outside investigator. The investigation shall be completed within ten school days from the date of the written report of bullying unless good cause exists to extend the investigation. No employee or student who reports an act of bullying shall be subject to reprisal or retaliation for making such a report. Any person who engages in reprisal or retaliation against an employee or student who reports an act of bullying shall be subject to disciplinary action.

Students who are found to have violated this policy will be subject to consequences depending on factors such as: age of student(s), degree of harm, severity of behavior, number of incidences, etc. Possible consequences to a student for a violation of this policy include: loss of privileges,

classroom detention, conference with teacher, parents contacted, conference with principal, in-school suspension, out-of-school suspension, expulsion and law enforcement contacted.

The District shall give annual notice of the policy to students, parents or guardians, and staff. This policy shall be included in all student handbooks. This policy shall also be posted on the District's web page (as a Board policy) and a copy shall be placed in the District Administrative Office.

The District shall provide information and appropriate training to District staff who have significant contact with students regarding the policy. All staff with significant student contact shall be trained on the requirements of this policy on an annual basis.

The District shall provide education and information to students regarding bullying, including information regarding this policy prohibiting bullying, the harmful effects of bullying, and other applicable initiatives to address bullying, including student peer-to-peer initiatives to provide accountability and policy enforcement for those found to have engaged in bullying, reprisal, or retaliation against any person who reports an act of bullying. The District shall instruct its school counselors, school social workers, licensed social workers, mental health professionals, and school psychologists to educate students who are victims of bullying on techniques for students to overcome bullying's negative effects. Such techniques include but are not limited to, cultivating the student's self-worth and self-esteem; teaching the student to defend himself or herself assertively and effectively; helping the student develop social skills or encouraging the student to develop an internal locus of control. District administrators will implement programs and other initiatives to address bullying, to respond to such conduct in a manner that does not stigmatize the victim, and to make resources or referrals available to victims of bullying.

Student Cell Phone Usage

Developments in cell phone technology in recent years have resulted in enhanced communication opportunities. However, the use of cell phones in schools poses increasing risks of school disruptions, bullying, criminal activity, and academic dishonesty. As a result, beginning with the 2008-09 school year, student cell phones, digital cameras and similar electronic devices will be banned during the instructional day, as well as, in dressing areas during extracurricular activities. Violation of this policy during the first semester after adoption of this policy will result in in-school suspension, while second offenses will result in out-of-school suspension being imposed. After the first semester 2008-09, out-of-school suspensions will be imposed on the first and subsequent offenses.

Parents may apply to the building principal to obtain a hardship exception. In such cases, the student's cell phone must be retained in the principal's office. Students granted a hardship may visit the office to use their cell phone for approved purposes. The District promotes healthy schools, by supporting wellness, good nutrition, and regular physical activity as part of the total learning environment. The District supports a healthy environment where children learn and participate in positive dietary and lifestyle practices. Schools contribute to the basic health status of children by facilitating learning through the support and promotion of good nutrition and physical activity. Improved health optimizes student performance potential.

Foster Care Bill of Rights

The District is committed to ensuring and facilitating the proper educational placement, enrollment in school and checkout from school for foster children.

In order to facilitate this process and to serve as the educational liaison for District foster children, the District will designate [Select One: Director of Student Services, Guidance Counselor, etc.] to oversee and assess the District's foster care program.

A foster care child whose home placement is changed may remain enrolled and attend their school of origin, or return to a previously attended school in an adjacent district. The District will accept for credit full or partial course work satisfactorily completed by a foster child while attending a public school, nonpublic school or non-sectarian school in compliance with District policies, regulations and practices.

If a child in foster care is absent from school due to a decision to change the placement of a pupil made by a court or child placing agency, or due to a verified court appearance or related court-ordered activity, the grades and credits of the pupil will be calculated as of the day the pupil left school and no reduction in grades will occur as a result of the pupil's absence under these circumstances.

If a foster care student transfers into the District prior to or during a school year, the District will initially honor the placement of the student in educational courses and programs based on the student's prior enrollment or educational assessments; will provide comparable services to transferring foster care students with disabilities based on the student's current IEP; and will make reasonable accommodations and modifications to address the needs of a student with disabilities, subject to an existing 504 or Title II Plan in order to provide equal access to education. The District will conduct evaluations, where necessary, to ensure proper placement and services.

The District will waive specific courses required for graduation if similar course work has been satisfactorily completed at another school. Similarly, the District may waive prerequisites for placement in a District course or program based upon courses taken at a prior school. If a waiver is denied for reasonable justifications, the District will provide an alternative means of acquiring the required course work so that graduation may occur on time. If foster care students who transfer at the beginning of their senior year or during their senior year are deemed ineligible to graduate after all alternatives have been considered, the sending District and this District will ensure that a qualified student who satisfied graduation requirements of the sending school, will receive a diploma from the sending school.

Students in foster care who have completed the graduation requirements of the District while under juvenile court jurisdiction will receive a diploma in the same manner as other District students.

Student Welfare

Seclusion and Restraint

Purpose

It is the purpose of this policy to:

- Meet the requirements of RSMo 160.263.
- Promote safety and prevent harm to all students, school personnel and visitors in the school district.
- Treat all students with dignity and respect in the use of discipline and behavior-management techniques.
- Provide school personnel with clear guidelines about the use of seclusion, isolation and restraint on school district property or at any school district function or event.
- Promote retention of teachers and other school personnel by addressing student behavior in an appropriate and safe manner.
- Promote parent understanding about state guidelines and district policies related to the use of discipline, behavior management, behavior interventions and responses to emergency situations.
- Promote the use of non-aversive behavioral interventions.

Definitions:

“Authorized School Personnel” means school personnel who have received annual training in:

- De-escalation practices,
- Appropriate use of physical restraint,
- Professionally-accepted practices in physical management and use of restraints,
- Methods to explain the use of restraint to the student who is to be restrained and to the individual’s family,
- Appropriate use of isolation,
- Appropriate use of seclusion, and
- Information on the policy and appropriate documentation and notification procedures.

“Assistive technology device” means any item, piece of equipment or product system that is used to increase, maintain or improve the functional capacities of a child with a disability.

“Aversive behavioral interventions” means an intervention that is intended to induce pain or discomfort to a student for the purpose of eliminating or reducing maladaptive behaviors, including such interventions as: contingent application of noxious, painful, intrusive stimuli or activities; any form of noxious, painful or intrusive spray, inhalant or tastes; or other stimuli or actions similar to the interventions described above. The term does not include such interventions as voice control, limited to loud, firm commands; time-limited ignoring of a specific behavior; token fines as part

of a token economy system; brief physical prompts to interrupt or prevent a specific behavior; interventions medically necessary for the treatment or protection of the student.

“**Behavior Intervention Plan (BIP)**” sets forth specific behavior interventions for a specific student who displays chronic patterns of problem behavior.

“**Chemical restraint**” means the administration of a drug or medication to manage a student’s behavior that is *not* a standard treatment and dosage for the student’s medical condition.

“**Emergency situation**” is one in which a student’s behavior poses a serious, probable threat of imminent physical harm to self or others. *[District option to also include “or destruction of school or another person’s property.”]*

“**Functional Behavior Assessment**” a formal assessment to identify the function or purpose the behavior serves for the student so that classroom interventions and behavior support plans can be developed to improve behavior. The assessment could include observations and charting of the behavior and interviews with family, teachers, and the student, so as to determine the frequency, antecedent and response of the targeted behavior.

“**IEP**” means a student’s Individualized Education Program as defined by the Individuals with Disabilities Education Act (IDEA).

“**Isolation**” means the confinement of a student alone in an enclosed space without locking hardware.

“**Law enforcement officer**” means any public servant having both the power and duty to make arrests for violations of the laws of this state.

“**Locking hardware**” means mechanical, electrical or other material devices used to lock a door or to prevent egress from a confined area.

“**Mechanical restraint**” means a device or physical object that the student cannot easily remove that restricts a student’s freedom of movement of or normal access to a portion of his or her body. This includes but is not limited to straps, duct tape, cords or garments. The term does not include assistive technology devices.

“**Physical escort**” means the temporary touching or holding of the hand, wrist, arm, shoulder or back for the purpose of inducing a student who is acting out or eloping to walk to a safe location.

“**Physical restraint**” means the use of person-to-person physical contact to restrict the free movement of all or a portion of a student’s body. It does not include briefly holding or hugging a student without undo force for instructional or other purposes, briefly holding a student to calm them, taking a student’s hand to transport them for safety purposes, physical escort or intervening in a fight.

“**School personnel**” means

- Employees of a local board of education.
- Any person, paid or unpaid, working on school grounds in an official capacity.
- Any person working at a school function under a contract or written agreement with the school system to provide educational or related services to students.
- Any person working on school grounds or at a school function for another agency providing educational or related services to students.

“**Seclusion**” means the confinement of a student alone in an enclosed space from which the student is physically prevented from leaving by locking hardware.

“**Section 504 Plan**” means a student’s individualized plan developed by the student’s Section 504 multidisciplinary team after a pre-placement evaluation finding the student is disabled within the meaning of Section 504 and its implementing regulations.

“**Time out**” means brief removal from sources of reinforcement within instructional contexts that does not meet the definition of seclusion or isolation. Time out includes both of the following:

- a) Non-exclusionary time out: removal of reinforcers from the student without changing the physical location of the student (e.g., asking the student to put his/her head down on the desk); and
- b) Exclusionary time-out: removal of the student from participation in an activity or removal from the instructional area.

Use of Restrictive Behavioral Interventions:

- **Time-Out**

Nothing in this policy is intended to prohibit the use of time-out as defined in this section.

- **Seclusion**

Seclusion as defined in this policy is prohibited except for an emergency situation while awaiting the arrival of law enforcement personnel as provided for in RSMo 160.263.

- **Isolation**

Isolation, as defined in this policy, may only be used by authorized school personnel, as defined in this policy:

- After de-escalating procedures have failed;
- In an emergency situation as defined in this section; or
- As specified in a student’s Individualized Education Program (IEP), Section 504 plan, or other parentally agreed-upon plan to address a student behavior.

Use of isolation requires all of the following:

- The student to be monitored by an adult in close proximity who is able to see and hear the student at all times. Monitoring shall be face-to-face unless personal safety of the child or staff member is significantly compromised, in which case technology-supported monitoring may be utilized.
- The total time in isolation is to be reasonably calculated by District personnel on a case-by-case basis based on the age of the child and circumstances, and is not to exceed 40 minutes [*District option to alter the time limit*] without a reassessment of the situation and consultation with parents and/or administrative staff, unless otherwise specified in an IEP or Section 504 Plan or other parentally agreed-upon plan to address a student’s behavior.
- The space in which the student is placed should be a normal-sized meeting or classroom commonly found in a school setting.
- The space in which the student is confined is comparable in lighting, ventilation, heating, cooling, and ceiling height to those systems that are in use in other places in the school.

- The space in which the student is placed must be free of objects that could cause harm.

Isolation shall never be used as a form of punishment or for the convenience of school personnel.

- **Physical Restraint**

Physical restraint shall only be used in one of the three circumstances below:

- In an emergency situation, as defined in this policy;
- When less restrictive measures have not effectively de-escalated the situation; or
- When otherwise specified in an IEP, Section 504 Plan or other parentally agreed-upon, plan to address a student's behavior.

Physical restraint shall:

- Only be used by authorized school personnel, as defined in this policy.
- Only be used for as long as necessary to resolve the actual risk of danger or harm that warranted the use of the physical restraint;
- Use no more than the degree of force necessary to protect the student or other persons from imminent bodily injury;
- Not place pressure or weight on the chest, lungs, sternum, diaphragm, back, neck or throat of the student which restricts breathing; and
- Only be done by school personnel trained in the proper use of restraint.

Any school personnel using physical restraint shall:

- Use only methods of restraint in which the person has received district approved training.
- Conduct restraint with at least one additional adult present and in line of sight, unless other school personnel are not immediately available due to the unforeseeable nature of the emergency situation.

Physical restraints should never be used as a form of punishment or for the convenience of school personnel.

- **Mechanical Restraint**

Mechanical restraint shall only be used as specified in a student's IEP or Section 504 plan with two exceptions:

- Vehicle safety restraints shall be used according to state and federal regulations.
- Mechanical restraints employed by law enforcement officers in school settings should be used in accordance with law enforcement policies and procedures and appropriate professional standards.

- **Chemical Restraint**

Chemical restraints shall never be used by school personnel.

Aversive interventions that compromise health and safety shall never be used by school personnel.

Communication and Training

- **School Personnel Debriefing**

Following any situation involving the use of seclusion, isolation or restraint, as defined in this policy, a debriefing shall occur as soon as possible but no later than two (2) school days after the emergency situation. The debriefing shall include, at a minimum, a discussion of the events that led to the emergency and why the de-escalation efforts were not effective; any trauma reactions on the part of the student, other students or school personnel; what, if anything, could have been done differently; and an evaluation of the process.

- **Parental Notification**

Except as otherwise specified in a student's IEP or Section 504 plan:

- Following a situation involving the use of seclusion, isolation or restraint the parent or guardian of the student shall be notified through verbal or electronic means of the incident as soon as possible, but no later than the end of the day of the incident.
- The parent or guardian shall receive a written report of the emergency situation within five (5) school days of the incident. The written incident report shall include all of the following:
 - Date, time of day, location, duration, and description of the incident and de-escalation interventions.
 - Event(s) that led up to the incident.
 - Nature and extent of any injury to the student.
 - Name of a school employee the parent or guardian can contact regarding the incident, and contact information for that employee.

- **Staff Training**

School districts shall ensure that all school personnel are trained annually regarding the policy and procedures involving the use of seclusion, isolation and restraint.

Students with Disabilities

The foregoing policy applies to all students. However, if the IEP team determines that a form of restraint or isolation or aversive behavior intervention may be appropriate in certain identified and limited situations, the team may set forth the conditions and procedures in the IEP or Section 504 plan. Any use of restraint, isolation or aversive behavior interventions must be limited to what is set forth in the IEP or Section 504 plan. Before adding the use of restraint, isolation or aversive behavior interventions to an IEP or Section 504 plan, the student must have undergone appropriate assessments to include, but not limited to, a formal functional behavior assessment and a positive behavior intervention plan must be developed, which indicates a plan to eliminate the use of the restraint, isolation or aversive behavior intervention over time.

Reports on Use of Seclusion, Isolation, Restraint or Aversive Behavior Interventions

Districts shall maintain records documenting the use of seclusion, isolation, restraint and aversive behavior interventions showing each of the following: when, reason for use, duration, names of school personnel involved, whether students or school personnel were injured, name and age of the student, whether the student has an IEP, Behavior Intervention Plan (BIP) or other personal safety plan, when the parents were notified, if the student was disciplined, and any other documentation required by federal or state law.

Applicability of this Policy

This policy applies to all district school personnel. School personnel assigned to programs not located on district premises (hospitals, detention centers, juvenile facilities, and mental health facilities) shall follow the policy and procedure of the facility/program where they work.

Guidance and Counseling Services

The District is committed fully to implement a guidance and counseling program that supports the academic, career, and personal/social development of all students, leading District students to successful transitions into post-secondary education and into the workforce. The District's guidance and counseling program is implemented with the services of fully certified school counselors supported by teachers, administrators, parents and students. The District guidance and counseling program is designed and implemented in a manner to be consistent with the standards of the Missouri Comprehensive Guidance and Counseling Program.

The content of the District's program, consistent with the Missouri Comprehensive Guidance and Counseling Program, is divided into three broad areas as follows:

Academic Development (ACAD)

1. Students will apply skills needed for achievement in school, both cognitive and affective.
2. Students will utilize skills necessary to successfully transition between educational levels.
3. Individual student learning plans will be developed and monitored throughout the students' District learning experience.

Career Development

1. Students will achieve life career goals through the consistent application of career exploration and planning skills.
2. Students will identify and locate information relevant to the "World of Work" and post-secondary training/education.

3. Students will achieve on-the-job success through the application of employment readiness skills.

Personal/Social Development

1. Students will achieve an understanding of themselves as individuals and as members of diverse local and global communities.

2. Students will interact with others in ways that manifest respect for individual and group differences.

3. Students will learn to apply personal safety skills and coping strategies.

Contact and Involvement with Outside Agencies

The counseling staff, in consultation with other staff members, is responsible for reviewing students' academic progress as well as personal/social concerns. Where appropriate, the District will make contact with and/or put students and their parents/guardians in contact with outside agencies or professional resources. Where appropriate, the District will cooperate and assist other agencies or professional resources that become involved with students. Student information will not be provided to outside agencies or professional resources until the student's parents/guardians or the eligible student has signed a release of information form. Except as required by law, including but not limited to the Individuals with Disabilities Education Act and Section 504 of the Rehabilitation Act of 1973, the cost of any services provided by the outside agency or professional resource is the sole responsibility of individual parents/guardians or eligible student.

Psychological Testing of Students

Psychological tests administered to students by qualified District personnel or appropriate diagnostic agencies will ensure quality psychological services in the District, and will protect the educational rights, dignity and privacy of students and parents/guardians.

Psychological evaluations will be made only after informed and written consent of the student's parent/guardian is obtained. A conference will be held with the parent/guardian to review all test results and the student's specific educational needs in the educational program. Psychological data are only partial criteria for determining any change in a student's educational program. Psychological data older than three years shall not be used as the basis for prescriptive teaching or placement.

All psychological services provided by the District or agencies contracted by the District will be in accordance with state and federal statutes and regulations concerning the privacy of student records and use of psychological services. Health Services

The Board of Education believes that in order to provide for the safety and well being of its students, it is necessary to implement and maintain a District-wide student health services program. The health service staff will be responsible to their building principal and may also be responsible to a designated District administrator.

The District will be responsible for providing first aid or emergency treatment for students in cases of sudden illness or injury. Where necessary, and with notice to the parent/guardian, emergency health services will be secured. The parent/guardian is responsible for the cost of their child's medical treatment.

Consent to Medical Treatment and Educational Service

As provided by statute, and as otherwise provided in Board Policy, the following individuals may consent to student medical treatment and educational services:

1. Parents
2. Student's legal guardian
3. Relative caregiver
4. Foster parent
5. Any person who under court order is authorized to give consent for a student

A "relative caregiver" is defined by statute as a competent adult (18 years of age or older) who is related to the student by blood, marriage or adoption, and who is not the parent. Relative caregivers are required to provide an affidavit attesting that the student lives with the relative caregiver and they are responsible for the care of the student. (See Form 2835).

A relative caregiver acting under the requirements of an affidavit may consent to medical treatment and educational services for a student who cannot otherwise legally consent, if the parent has delegated these responsibilities in writing, or after reasonable efforts, the consent of the parent cannot be obtained.

The consent of the relative caregiver will be revoked in the event the student's parent withdraws their authorization provided the parent's decision does not threaten the life, health or safety of the student. In addition, if the student ceases to live with the relative caregiver, the relative caregiver must immediately notify the District. Upon receipt of such notice, the relative caregiver can no longer consent to medical treatment or educational services.

A relative caregiver's affidavit is valid for one year from the date received by the District.

Student Accident Insurance

The Board of Education will provide the opportunity for parents/guardians, students and others to purchase student accident insurance on an annual basis. Each year the Administration will choose a provider offering group rates and will make the information available to District families.

Participation in any group plan is optional and arrangements for participation are the responsibility of the parents/guardians or students. However, all students are required to have insurance coverage before they are allowed to practice or compete in interscholastic athletics, cheerleading, pompon squads and similar groups.

Inoculations of Students

All students attending District schools are required to be in compliance with state programs mandating immunization against specific diseases. Failure to comply with District immunization requirements will result in exclusion from school until proof of compliance is provided. Parents/guardians of homeless students are encouraged to submit proof of compliance as soon as possible.

The Superintendent shall institute procedures for the maintenance of health records, which are to show the immunization status of every student enrolled or attending in the District, and for the completion of all necessary reports in accordance with guidelines prepared by the Department of Social Services-Missouri Division of Health.

Upon written request, the District will notify the parents/guardians of pre-kindergarten students whether other pre-kindergarten students are attending school with an immunization exception. The identity of students for whom an immunization exception has been filed is confidential and will not be released except as required by law.

Students with Communicable Diseases

A student shall not attend classes or other school-sponsored activities, if the student (1) has, or has been exposed to, an acute (short duration) or chronic (long duration) contagious or infectious disease, and (2) is liable to transmit the contagious or infectious disease, unless the Board of Education or its designee has determined, based upon medical evidence, that the student:

1. No longer has the disease.
2. Is not in the contagious or infectious stage of an acute disease.
3. Has a chronic infectious disease that poses little risk of transmission in the school environment with reasonable precautions.

School officials may require any child suspected of having a contagious or infectious disease to be examined by a physician and may exclude the child from school, in accordance with the procedures authorized by this policy, so long as there is a substantial risk of transmission of the disease in the school environment.

A student who has a chronic infectious disease, and who is permitted to attend school, may be required to do so under specified conditions. Failure to adhere to the conditions will result in the student being excluded from school. A student who has a chronic infectious disease and who is not permitted to attend school or participate in school activities will be provided instruction in an alternative educational setting in accordance with District policy.

Students with acute or chronic contagious or infectious diseases and their families have a right to privacy and confidentiality. Only staff members who have a medical reason to know the identity and condition of such students will be informed. Willful or negligent disclosure of confidential information about a student's medical condition by staff members will be cause for disciplinary action.

The District will implement reporting and disease outbreak control measures in accordance with the provisions of Missouri Department of Health publication PACH-16, "Prevention and Control of Communicable Diseases: A Guide for School Administrators, Nurses, Teachers and Day Care Operators," a copy of which shall be on file in the office of the Supervisor of Health Services and in the office of each school nurse.

Administering Medicines To Students

It shall be the policy of the Board of Education that the giving of medicine to students during school hours be discouraged and restricted to medication that cannot be given on an alternative schedule. The Board of Education recognizes that some students may require medication for chronic or short-term illness/injury during the school day to enable them to remain in school and participate in their education. Employees providing routine first aid according to District procedures will be immune from liability or disciplinary action. Similarly, trained employees will be immune from civil liability for administering cardiopulmonary resuscitation and other lifesaving methods in good faith and according to standard medical practices. The Board of Education also recognizes that the administration of medication may be required under Section 504 of the Rehabilitation Act of 1973 and/or the Individuals with Disabilities Education Act to provide a free appropriate public education for identified as disabled under those laws.

Student Allergy Prevention and Response

The purpose of this policy is to create an organized system for preventing and responding to allergic reactions in accordance with House Bill 922 (2009). This policy is not a guarantee of an allergen-free environment; instead, it is designed to increase awareness, provide education and training, reduce the chance of exposure and outline responses to allergic reactions.

This policy applies to district facilities to which students have access and includes transportation provided by the district. The Board instructs the superintendent or designee to develop procedures to implement this policy.

Identification

An allergic reaction is an immune system response to a substance that itself is not harmful but that the body interprets as being harmful. Allergic reactions range from mild to life-threatening. Each school in the district will attempt to identify students with life-threatening allergies, including food allergies. At enrollment, the person enrolling the student will be asked to provide information on any allergies the student may have.

Prevention

Students with allergies that rise to the level of a disability as defined by law will be accommodated in accordance with district policies and procedures pertaining to the identification and accommodation of students with disabilities. An Individualized Health Plan (IHP), including an Emergency Action Plan (EAP), may be developed for students with allergies that do not rise to the level of a disability.

All staff members are required to follow any 504 Plan or IHP/EAP developed for a student by the district. Staff members who do not follow an existing 504 Plan or IHP/EAP will be disciplined, up to and including termination.

Staff members shall not use air fresheners, oils, candles, incense or other such items intended to add fragrance in any district facilities. This provision will not be construed to prohibit the use of personal care items that contain added fragrance, but the principal may require staff members to refrain from the use of personal care items with added fragrance under particular circumstances.

Staff members are prohibited from using cleaning materials, disinfectants, pesticides or other chemicals except those provided by the district.

The district will not serve any processed foods, including foods sold in vending machines, which are not labeled with a complete list of ingredients. Vended items must include a list of ingredients on the individual package. The food service director will create an ingredient list for all foods provided by the district as part of the district's nutrition program, including food provided during the school day and in before- and after-school programs. This list will be available upon request.

Prepackaged items used in concessions, fundraisers and classroom activities must include a list of ingredients on the package. If the package does not contain a list of ingredients, the list of ingredients must be available at the location where the package is sold or provided.

Education and Training

All staff members will be annually trained on the causes and symptoms of and responses to allergic reactions. Training will include instruction on the use of epinephrine premeasured auto-injection devices.

Age-appropriate education on allergies and allergic reactions will be provided to students as such education aligns with state Grade-Level Expectations (GLEs) for health education. Education will include potential causes, information on avoiding allergens, signs and symptoms of allergic reactions and simple steps students can take to keep classmates safe.

Confidentiality

Information about individual students with allergies will be provided to all staff members and others who need to know the information to provide a safe learning environment for the student. Information about individual students with allergies will be shared with students and others who do not have a legitimate educational interest in the information only to the extent authorized by the parent/guardian or as otherwise permitted by law, including the Family Educational Rights and Privacy Act (FERPA).

Response

Response to an allergic reaction shall be in accordance with established procedures, including application of the student's 504 Plan or IHP/EAP, where applicable. Parents of students with life-threatening allergies should supply the school with epinephrine premeasured auto-injection devices to be administered in accordance with Board policy.

Student Physical Examination

The Board of Education may require any student to be examined by a physician for the purpose of determining whether the student is afflicted with a contagious or infectious disease or have the liability of transmitting the disease.

The Board may also require certification from a physician indicating a student's fitness to participate in specific educational programs or extra-class activities.

Refusal on the part of parent/guardian to obtain the required examination and to submit the certification indicating freedom from contagious or infectious disease may result in student exclusion from school.

Students may be excused from engaging in required educational activities upon proper certification from a physician advising of student disability.

All costs of physical or other examinations shall be at the expense of students unless state or federal law specifically mandates the examination to be the responsibility of the school.

Vision Examinations

Beginning July 1, 2008, students enrolling in kindergarten or first grade will be required to receive a vision examination from a state licensed optometrist or physician.

Beginning on July 1, 2008 and continuing through the 2011-12 school year, a trained District nurse or other qualified District employee will conduct eye screening exams for every student prior to the completion of first grade and will again screen before the completion of third grade. If a student fails an eye screening, the District will notify the parent/guardian of the results of the eye screening and will require the student to receive a complete eye exam from an optometrist or physician. Students will be excused from the eye screening examination if a student's parent/guardian submit a written objection to the exam addressed to the student's principal.

Do Not Resuscitate (DNR) Orders

The School District recognizes that some students have progressive medical conditions that may result in the students' death while present at school or school activities. The District appreciates the difficult medical and emotional decisions that must be made when families choose to limit resuscitative efforts for these students. Accordingly, the administration shall develop procedures for evaluating requests by a parent or guardian that the District honor a Do Not Resuscitate (DNR) order from a licensed physician.

At a minimum, the procedures will require an individualized evaluation of each request. The procedures will comply with federal and state law. A health care and resuscitation/non-resuscitation plan shall be developed for each request and shall include a determination regarding what if any resuscitation efforts are appropriate. Health care and resuscitation/non-resuscitation plans will be developed by a multidisciplinary team that shall include the student's parents or guardians and physician; appropriate school personnel (including but not limited to, the principal, counselor, and school nurse) and their consultants; and when appropriate, the student. This team will consider the best interests of the student.

The team will also address and plan for the effect of a student's sudden death on other students and staff in each school setting in which the student participates. Health care and resuscitation/non-resuscitation plans shall be reviewed regularly and have a specific limited duration. Such plans will be communicated to all school personnel who have a need to know in order to implement these plans. The administration shall coordinate with local emergency medical services to implement the plans.

Student Publications

The Board of Education encourages student production and distribution of publications which can provide opportunities for practical journalistic experience and for the written expression of differing opinions. The Board of Education recognizes that freedom of speech and press bring corresponding responsibilities, therefore, in its inherent authority based on Missouri Public School Law, it designates the school principal as the Board's representative. The principal, through appointment of a faculty advisor, shall provide guidance to students in appropriate methods for preparing and producing publications.

The building principal/designee may delay or stop distribution of any materials proposed for printing or that have been printed which may be reasonably forecast to cause substantial and material disruption or obstruction of any lawful mission, process, or function of the school.

Activities and Athletics

Interscholastic Activities and Athletics

The District provides opportunities for students to participate in interscholastic activities and athletics. The interscholastic programs should encourage participation by as many students as possible and should be carried on with the best interests of the students as the primary consideration. The programs are expected to be well organized and well conducted and to have a positive influence on the students and the community.

Participation in interscholastic and extracurricular activities is a privilege and not a right. Interscholastic competition may be withheld from any student as a condition of discipline. Furthermore, all policies that apply to the regular school day apply also to interscholastic competition. Coaches and sponsors may establish policies for their groups in addition to those set out by the Missouri State High School Activities Association.

Hazing

Student hazing is inconsistent with the educational goals of the District and poses a significant risk to the physical and mental welfare of District students. Hazing of students, on or off District property, is prohibited and may result in suspension or expulsion from school and from activity/athletic participation.

Participation by Non-Traditional Students

Student Essential Eligibility Requirements for All Interscholastic Activities: Any student who represents his/her school in interscholastic activities shall be a **bona fide student** enrolled as an undergraduate student of the school, and shall meet the following general standards of eligibility and specific standards.

The school district does not allow non-traditional students to participate in any extracurricular activities.

Bona Fide student: In order to represent the school the individual must be a bona fide student and meet all eligibility requirements. A bona fide student is one who meets one of the following definitions.

1. The student must be enrolled in a District high school (although some courses/credits are taken off-campus, i.e. virtual, post-secondary, work study, etc;) and take a minimum of four (4) credit bearing seat time classes for a minimum of 2.0 units of credit at the high school.
2. All credits attempted must appear on the student's high school transcript; and
3. All classes must be completed by the high school's close of semester in order to be considered counted toward activity eligibility.

Change of Enrollment Status

As a transfer student, the student would be activity ineligible until a transfer of eligibility form is filed and an eligibility ruling rendered.

(Form 2930.1)

(Form 2930.2)

Any District athlete suspected of sustaining a concussion or brain injury must be removed from practice and competition immediately and may not participate in contact athletic practice or competition for at least twenty-four (24) hours. Athletes suspected of sustaining concussion or brain injury will not be permitted to return to contact practice or competition until being evaluated by a licensed health care provider trained in the evaluation and management of concussions and receiving a written clearance from the provider to return to competition. (See Form 2930 - MSHSAA Concussion Return to Play Form). Information about concussions obtained from MSHSAA (Form 2930.2) or similar materials will be made available to all student athletes and to their parents/guardians.

Student Group Use of School Facilities

Pursuant to the Equal Access Act, District secondary schools will provide an opportunity for student-initiated noncurricular groups to conduct meetings on school premises, during non-instructional time, and will not discriminate against students on the basis of the religious, political or philosophical content of the speech at such meetings.

An activity is to be considered curricular if the subject matter is or will be taught in a regularly offered class; if the subject matter concerns the body of courses as a whole; if participation in the group is a requirement for a course; or if academic credit is available for participation. Extracurricular activities include activities organized and supervised under the auspices of the school. Extracurricular activities primarily involve students in activities occurring outside academic class time, for which no units of credit are awarded. Any activity which does not meet the definition of a curricular or extracurricular activity will be considered noncurricular.

Reporting Student Abuse

The Board of Education believes that school staff members are in a unique position to assist children, families, and the community in dealing with the issue of child abuse and neglect. Child abuse is defined as any physical injury, sexual abuse or emotional abuse inflicted on a child other than by accidental means. Neglect is defined as the failure to provide the proper or necessary support, education, nutrition or medical, surgical or other care necessary for the child's well-being. Employees making reports of allegations of sexual abuse of a student will be provided immediate unrestricted use of communication technology and will be temporarily released from their work duties to make an immediate report.

If a school employee has a reasonable belief including a report of abuse to believe that a student has been or maybe subjected to abuse or neglect, such employee and the Superintendent shall report the information immediately upon receiving the information to the Children's Division. Thereafter, the Superintendent will investigate the allegation for the purpose of making decisions about the accused person's employment. Depending upon the specific facts, the District may place the alleged abuser on paid leave of absence; place the employee in a non-student contact position; initiate dismissal proceedings, or continue the employee in their present position pending outcome of the investigation.

Any school district employee, acting in good faith, who reports alleged sexual misconduct on the part of a school employee will not be disciplined or discriminated against because of such reporting.

The District will annually provide employee training, which will include but not be limited to current information concerning identification of the signs of sexual abuse in children as well as the identification of the danger signals of potentially abusive relationships between children and adults. This training will emphasize the importance of mandatory child abuse reporting, including the obligation to report suspected abuse by other mandated reporters. Employees will receive training on the need for and methods to create an atmosphere of trust so that students believe their school and school employees are available to discuss matters concerning abusive behavior.

The District will post in each student restroom and in a clearly visible location in each school office, the toll free child abuse and neglect hotline number established by the Children's Division. These signs will be published in both English and Spanish. Such child abuse and neglect hotline numbers shall be depicted in large print on posters 11 inches by 17 inches and will be placed at eye level for easy viewing. The hotline number will be shown in bold print. The signs shall also contain instructions to call 911 for emergencies and contain directions for accessing the Children's Division's website for more information on reporting abuse and neglect.
